PROFESSIONAL PROFILE

Data & Analytics leader and SAP data architect with a **business mindset** and **20+ years** of experience. I lead multidisciplinary teams and critical migrations that turn data into **measurable decisions and tangible savings**, across industry, consumer goods, hospitality and government. Today I lead the Data Engineering SAP team and data architecture at HEINEKEN Mexico, driving the **SAP-Databricks integration**.

CORE COMPETENCIES

Strategy & Leadership

- Team leadership
- Project management
- Data governance
- Cost optimization

SAP Architecture

- BW/4HANA
- SAC
- BPC
- BusinessObjects
- Data Intelligence
- Analysis for Office
- ABAP

Analytics & Cloud

- Databricks
- AI/BI Genie
- Azure
- Data products
- Generative AI & NLP
- Prescriptive intelligence

PROFESSIONAL EXPERIENCE

SAP BW/4HANA · SAC Architect — HEINEKEN Mexico

2019 – Present

I lead the Data Engineering SAP team and the analytics architecture, driving the **SAP-Databricks** convergence toward AI-augmented analytics.

- Built **Genie Sales Assistant** on Databricks AI/BI Genie: sales insights in **natural language**, without waiting for a report.
- Designed the **sales data product**: SAP ECC modeled in Databricks to automate daily OpCo-level tracking.
- SAC → Analysis for Office** redesign: **-50% in licensing cost** (2024 and 2025).
- Leading a **~15-person team**: **300+ reports** migrated to SAC.
- Critical **BW/4HANA 2023** and SAP Data Intelligence migrations delivered smoothly; **-50% storage** and **-33% servers** (DVM).
- SAP BO → SAC migration with planning-license optimization.

Sr. SAP BW Consultant — Grupo AIEn

2018–2019

- BW solutions for Nielsen indicators (Scantrack), Picture of Success and Human Resources on BW on HANA.

BI/BPC Technical Lead · PM — Pueblo Bonito

2016–2018

- Financial consolidation, hotel operations reporting, IFRS and Mobile; project management for FI/CO/MM and Supplier Portal.

SAP BPC Technical Lead · Senior BW — Fibra Inn

2015–2017

- Hotel operations budget planning and BI development for financial modules, BMV reporting and Mobile.

Senior SAP BW Consultant — CEMEX

2014–2015

- Profitability models (Mexico and Colombia), legal/overdue receivables and HR indicators (SAP and non-SAP sources).

CASE 01 · GENIE

Genie Sales Assistant: sales in natural language

A **governed data product** (SAP ECC → Databricks) and an AI assistant that answers without waiting for a report.

APPROACH

- ◆ Sales data from **SAP ECC** modeled as a data product in Databricks.
- ◆ Automated **daily OpCo-level tracking**.
- ◆ **Genie Sales Assistant** on Databricks AI/BI Genie.

Natural language

Insights without a report

AI/BI Genie

AI-augmented analytics

CASE 02 · SAP PLATFORM

SAP analytics platform modernization

Consolidating and modernizing the entire SAP platform, leading a **~15-person team**.

APPROACH

- ◆ **SAC → Analysis for Office** redesign: -50% licensing.
- ◆ **300+ reports** migrated to SAC.
- ◆ **BW/4HANA 2023** and Data Intelligence migrations delivered smoothly.

-50%

Licensing cost

300+

Reports migrated

CASE 03 · €1.5M

Data intelligence for manufacturing

Multi-plant operation: from fragmented supply contracts to **full, proactive control**.

APPROACH

- ◆ A tool that **unifies and standardizes** supply contracts.
- ◆ From reactive to proactive control, standardized annual coverage.
- ◆ Achieved with **no additional infrastructure investment**.
